On Saturday we received the following

reply-

The moment the dispatches were laid on the table they became public property and ought to have been immediately open to the impection of the reporters. In attempting now to keep the dispatches back, except from the members of Council, the Administrator has been guilty of a grave irregularity. All - be-papers laid on the table of the House of Commons immediately become public property, the Irish Land Act. and Sir John Pope Hennessy has repeat. THE IMMIGRATION OF CHINESE INTO edly said that the procedure in the Legisla, tive Council of Hongkong must be governed by the precedents supplied by that House-

though he has himself departed very widely from them when it suited his purpose to do so. In the present case Mr. Tonnocur seems to be following in his footsteps. In

ordinary course the papers ought to have appeared in Saturday's Gazette, but they are not to be found there. It may be remarked that it was by Lord Kru-BEHLEY'S express command that the papers were laid on the table, and if what we hear be true, they amount to little less than a severe reprimand of the Governor The attempt of the Administrator to keer them as dark as possible certainly gives a the absence of the papers themselves we refrain from comment for the present.

By reports received from Shanghai, we were led to expect the Company would prove well up to the mark, and the performance of Saturday amply justified our authorpations. In common with preceding companies, this one labours under the disadvantage of possessing no chorus, and is compelled to make shift a good deal for strong colour of probability to this, but in scenery, but most of the principals are good artists and possess voices of great power. The Opera produced, Verdi's " Il last prize giving at the school, and although ! The scenes were better depicted, with one exception, and the prison scene especially was more

effectively represented than we have been wont to witness it here. - The house-was most-demon stratively appreciative, giving frequent encouragement to the Company and the principals were thrice called before the curtain and rewarded and several of the singers have already established for themselves a reputation in the Colony by their successful vonalisation on Saturday. That room reminded the rev. centleman of what The number of pupils was then about 80, but since then they had gained in numbers to 100. then to 200, and now the Superior of the Christian Brothers informed him there were no less than 256 bevs in the school. As to the efficiency of the teaching of the school it was not for him to speak on that point. It was enough to say that the teachers were the Christan Brothers, for their fame was widespread. Last year the instruction of the school had abouted under great disadvantages, owing to its being located in mat-sheds, and also because of their having had to shift from one place to another. Notwithstanding all these disadvantages. out of 163 boys who presented themselves for examination 158 passed, only 5 failing, showing a percentage of 97 per cent. During the year 24 boys left the school, and almost all found situaions. In the new college it was in contemplation o introduce a new class for those boys who had passed all the estandards, so as to give them's righereducation and thus prepare them thoroughy for situations. As to only 163 bors out of 256 presenting themselves for examination, there was this reason for it. Some of the boys only joined during the year, and of course they could not attend 200 days, the number required for the many reasons, so that the required attendance of 200) days was a great stumbling block. It was found in Hongkong very difficult to get boys to attend 200 days in the year, the rains in summer making it impossible for children to attend, and there was of course sickness to prevent attend If the number of days could be reduced certainly more boys could be presented without danger whatever to their instruction; for they could be put up and passed through they had not attended 200 times. As to the peuppiary matters of the school, he (the rev. father) might say that if they had more funds, they would be able to do more good. He was naked by an authority the other day whether if the grant-in-aid were increased it would be possible to reduce the school fees, and his answer was that there was no necessity for reducing the scale of fees, as no one had refused to E. His Excellency the ADMINISTRATOR said-Pather Burghignoll, ladies and gentlemon, gives me great pleasure to attend here to-day. this anniversary of the St. Joseph's College, for the purpose of distributing the prizes. It is a long time shoo I took an active part at a meeting of this description, and therefore, if I am guilty of any shortcomings, I hope you will excuse me he fact of the matter is that the last time took part in an interesting ceremony like this, was a pupil myself, and my place at the present time was filled by the worthy principal who was at the head of the school to which I belonged. Time rolls away very quickly, and it hardly seems so long, but it is nearly twenty-two years -within a few months-since. I attended at the have not been present at similar interesting coremonies since then, it has not been from any disinclination, for ever since I was at school I have belonged, and in the cause of education. the Rev. Father Barghigneli was kind enough to invite me to attend to-day. I thought it only right to make pertain inquiries - with regard to the result of the examination held in this school I was well acquainted with the school itself having been in this Colony for nearly twenty years and I remember it when it was St. Savious's P. school, which, as the Rev. Father has already said, began in these two rooms. I also recollect the arrival of the Christian Brothers, and the removal of the school afterwards. I hope that the lew school, the foundation of which was laid by our M Xavier, for General Improvement, pen wiper, pre Governor Sir John Pape Hennessy, will soon be in a position to receive its pupils? (Applause) The Christian Drothers were kind enough to favour me with a few facts with regard to theschool, but these have already been mentioned by R. Carneiro, for Arithmetic, inkeland, presented by a the Rev. ather who spoke before me, and therefore I will not trouble you with them. I may say, however, that I called upon the Government Inspector of Schools to give me a few facts with to know her part too well, and could hardly on regard to the last examination, and I think it some occasions play up to the others. Signors will be interesting for you to hear a few solec-

it is difficult to controvert, and I am hoppy to say that on this occasion as well as on others they have been extremely favourable towards St. Joseph's College and they exhibit the great pains which the Christian Brothers are always known. to bestow, and the success which attends their effortain the sphools under their charge. (Appleuse) St. Joseph's College, as you know, gives tuition to both Portuguese and Chinese papils, and find in comparing the year 1880 with 1881 that the percentage of passes gained amongst the Chinese boya last year is a trifle less than in 1880; but amongst the Portuguese boys the number who passed under the grant-in-aid was greatlyu excess of the year before. There was a slight fulling off in the results of teaching Chinese boys, but there were most satisfactory results with regard to the Portuguese. Out of 140 boys only four failed in more than one subject. With regard to the attendance of the boys, this was very satisfactory according to the report of the Inspector of Schools. He says that the numbers enrolled in 1880 was 288 and in 1881 281; but although there were fewer encolled in 1881 than in 1880 the average daily attendance amongst the Chinese alone was 4.68 more than in 1880, and amongst the Portuguese, 21.33. which I think is highly satisfactory. I had a conversation with the Rev. Father, when he called upon me the other day, about the required number of 200 attendances, and it really seems that there ought to be some alteration

made. In comparison with the average number of attendances in two or three Schools in the Colony. M. Pere ra, for Grammar, prayer book, presented by find that in the St. Joseph's, Chinese division. there were 203 attendances on working days; St. Joseph's, Portuguese division, the same number ; the Victoria School, Boys and Girls, 263; the Hongkong Public School 250; and the Government Central School 247. Therefore I think that St. Joseph's College with its 203 working days has done very well in passing so many of its pupils through the standard. (Applause), But those 200 days I found did not include Sundays, and it appears that on Sundays the majority | T of the pupils attend school for the purpose of instruction, and I think that if the matter is M Barradas, 2nd prize for Arithmetic, book prerepresented again to the Secretary of State, that !on counting Sundays a great difference will be made in the number of pupils passed. According to the rules of the present grant-in-aid scheme the Inspector is not allowed to examine those who do not come up to the standard of attendance, that is, they must have 200 attendances. But I believe that if the pupils were all exam-

The only one not under that soheme is the school conducted by the French Sisters where the children are really so small that we could bardly expect their to undergo any examination at all. I think, ladies and gentlemen, these are all the interesting particulars that I can give you with regard to this school. They have been furnished by the Inspector of Schools. and he gave a highly satisfactory report of this school. In its comparison with the other echools of the Colony, seeing that Chinese is not taught in the school, that Euglish is mainly taught, and that the pupils who attend are Chinese and Portuguese who have not the advantage when they are at home of hearing English spoken and accustoming themselves to

the language like the boys of other schools, like the Hongkong Public School and others, I think the results are most satisfactory, and I have much pleasure in congratulating the Christian Brothers on the state of the school. I will now distribute the prizes. His Excellency then distributed the prizes, and as the coremony was necessarily a long one, on account of the number of awards, it was varied with some music. Mr. HUNG HING CHAN on receiving his prize

thanked His Excellency on behalf of himself and schoolmates for his kindness in coming there to present the prizes, and also tendered the thanks of the pupils to the donors of the prizes. His EXCELLEBOY then thanked the Rev. Father Burghigneli for providing them that entertainment. It had given him much pleasure to be present and distribute the prizes, and he thought the thanks of all were due to those ladies and gentlemen who had some forward so liberally to give prizes. He only hoped the boys would

derive as much pleasure from their prizes as he felt in distributing them. (Applause). The proceedings then terminated. The following is the prize list-

The following August Report from the Post master General is published in the Gazeite General Post Office, Hongkong, 16th Februray, 1882. Sir. I have the bonour to report on th

British Postal Service in Hongkong and China 2.—Few persons who have had much to de with the preparation of Reports, especially of anch as are drawn up in the mere course routine, can, have avoided asking themselves whether these unusly recurring documents are of any use f and when they mainly consist of masses of tabulated figures, it may be doubted whether they are of such practical service as to compensate for the heavy expense of printing It is satisfactory therefore to consider that valuable additions to our Postal Service -Parcol Post with India and with Ceylon, and a Money Order system with India—have been instituted as direct consequences of the Report prepared in this Department last year. Advantage has been the corresponde ce for Union Countries (other taken of the initiation of the India Money Order system to revise our Rates of Money Order Commission (sdapting them to the decimal coinage of this Colony) and to assimilate those levied on

The following are 6.—The trouble and delay caused by the large numbers of short-paid newspapers alluded to in last year's Report continued until the London Office out the knot by sending them all out by private ship. They still arrive (but now as fully paid) in considerable quantities. All epdeavours to get at the senders and impress on them that newspaper Postage from the United Kingdom to

China is Three-half-pence seemed to fail. 7.—This was perhaps partly owing to the idea which prevails that under the Postal Union the nums observed as postage must be the same in all countries. It is not so. The rules of the Postal Union prescribe timits which must not be expeeded, but within those limits there is a discretion, especially as to the rates on correspondence carried long distances over sea. Hence it is that a newspaper sent from London to China by mail is charged lad, but in the reverse direction ld.

A letter on this subject from the London Post Office is printed in the Appendix. 12.—In July last the P. & O. Pucket Polin broke her shaft soon after leaving Sing more on the outward voyage. The mails were brought on here by the Descalion (Blue Funnel: Line) vanching this Colony and Shanghai four days after the respective contract times. A further delay of two hours in the delivery of papers, Ac., rasulted at Shanghai, as there was not time to sort

them in this Office. 13.-In February last the Japanese packet Sumida Miru, which had on board the French and English Mails for Kobe and the English Mail for Yokohama, broke a piston and had to put into Amoy in distress. The Agents frequently cannot tell to within 12 hours or so how soon their vessuls will start. When the chance of oatching other packets at Shanghai or Yokohama is willed, with a doubt whather the printed Time Table is being strictly observed, the problem of un does become rather tangled. + Difficult as it may be. however to point out the best route a day before. it is particularly easy to do so a work after. when all the possibilities have become certainties, a distinction perhaps somewhat overlooked by impatient expectants of the Mail, who fail to see why the Post Office could not be equally wise before the event. The rule of this Office has been No ricks, and, failing the appointment of an Agent of the Japanese Post Office or communities to choose the routes for mails, it will

be adhered to. 15.—General International Statistics for the settlement of accounts were taken in May last. They passed off smoothly and willout any irregularity; . The arrears in accounts alimited. to in previous Reports have mostly disappeared as much so in fact as they ever will. 17.-An improvement, suggested by Neel Trotter. Esc. of the Straits Settlements Post Office, has been introduced into the sorting of the French Mail. It is based upon the fact 4.—Continual vigilance will have to be main- that, in sorting letters to many addresses, more time is consumed in walking to and . post. A complaint was received during the year correspondence. It is therefore an accommy from the German Post Office, that a box of Vesta to detaoth two officers to perform a preliminary Shaughai had exploded in the travelling Post | which Sections are then sected, without walking Office van, thereby nearly leading to an accident about, by the others. your letter of the 14th of October last, No. 712. in which, with reference to the communication ship. from this Department of the 6th September, you urge that samples of sugar should be allowed to

The Department has carefully reconsidered this question, but it can so no reason for altering its opinion that the transmission of augar from transmission of anything likely to stain or injure | he was sentouced to six weeks' imprisonment. the correspondence.

It is possible, no doubt that samples of sugar may sometimes pass through the post without injurious results; but, on the other hand, it is the experience of the Officers here that such samples frequently arrive in an almost liquid condition, and it is not found that sufficient security is afforded by packing them in the way you suggest as even Tin Boxes are liable to be outshed to a sufficient extent to allow of the moisture exading and damaging the correspon-

I may add that, in the view of the Department the foregoing objections apply equally to the transmission of scap and candles, both of which articles are described as admissible in the extract from the Local Postal Guide which you enclosed.

(B.) Mail departure on Monday. General Post Office, London,

7th April, 1881 SIR. -I have received your letter of the 15th February last, in which, whilst acknowledging the receipt of a supply of sopies of the Time Table of the India and China Mail Packet Services for the present year, you call attention to community of Hongkong by Monday having been fixed for the departure of the homoward

The Postmastor General is sorry for the inconvenience thus conssioned to the community of Hongkong, but he does not at present see any remedy for it. In arranging a service like that of the combined India, China and Australia Mails, all in connection at Suez with a single line to Brindisi, it is obviously not possible t suit the convenience of every place served. that can be done is to make the best general arrangements which are practicable.

Last year it was found that there was not sufficient interval between the arrival of the India Mail in England and the return Mail, and great inconvenience was experienced here in consequence. In order to remove this inconvenience arrangements were concerted, after much deliberation between the India Office and this Department, for bringing the Mails into of the Kingdom to receive letters and answer 1,500 pkgs. merchandise. them by the return Mail.

This advantage is attained by the present Time Table, and the arrangement promises to be suc-

POLICE COURT.

12th March. BEFORE DR. F. STEWART

Henry James, an gnemployed soaman of Jamaica, was obarged with having assaulted Cheng Yik Yu, a tailor, on the 10th instant. The complainant said he had a lanters in his hand and was walking along, when he met the defendant, who kicked him on the leg severely,

and broke his lantern. The defendant said he only pushed the complainant on one side, but the latter's story was corresponded by P.C. 133, and defendant was fined \$1, or in default four days' imprisonment. -

UNLAWFUL POSSESSION. Wong Aoi, and Tse Kun Chung, married women, were charged with having been unlaw. fully in possession of a silver watch, and pawning the same on the 21th instant. The charge was proved and the defendants were sentenced to three months' imprisonment

BEFORE MR. H. E. WODEHOUSE.

CHARGE OF STRAGGLING. Edward Phelan, seamen of the American ship Hongkong Hotel Company's Shares-\$106 per H.T. Clayton, and Charles Fallen, of the American

ship Syren, were charged, on remand, with baving deserted from their respective ships on the 2nd P.C. John Cromer stated that on the day in question the men were loitering about the town, and for the past month they had been loading

about without any visible means of subsistence, begging money of men-of-war's men and others stating that they had ships and wanted 10 cents | Chinese Imperial Loan of 1874-£109 Nominal. to get on board with, and when they got money; they spent it in drink. They slept on the bill side in the open air. The first defendant said he was still on the

books of his ship, though his time was upil8. days ago. He was too ill to go on board. He had been offered his discharge but he would not accept it, as the Captain refused to pay him the money that was due to him, - The second defendant said he had been discharged from his

After a remand P.C. Cromer said he had ascertained that both men were deserters, and he produced certificates from the U. S. Consul proving such to be the case. The first defendant was ordered back to his ship, and the case of the second was further re-

After this remand the defendant made a long statement. He said he was on board his ship till the 26th October, and on that day he asked the captain for liberty to go on shore, but the latter told him he could not give him any money, and if he wanted his discharge he would give him all that was due to bim if he would pay the American Consul the menth's pay for the discharge. This he agreed to do, but the Consul wanted security, and he was unable to obtain it, and ultimately he was charged with desertion and sent on board his ship. He was sent on shore again by the captain, who told him to ondervour to get security, and he stayed ashore two days. He came back with a card from the boarding-master which the captain would not look at as he had overstayed his leave. Defendant was drunk-then, and sick also, and he told the mate he was anable to work when the latter ordered him to do so. The mate put him in frons until the next day, when the mate gave him 20 cents and sent him ashore, telling him he thought no one would. trouble him. He went ashore, and was skain sent on board as a deserter, and then the captain told him to run away as if he stopped on board he would give him all that dirtiest work. He went ashore, and was brought before the Magistrates again, and sentenced to 14 days' imprisonment. From the gaol he was taken to the Hospital, from where he was

received of this amount was 84. He wanted to go to the Hospital. Captain G. M. Brown, of the Syren, said the defendant was still upon the books of the ship. but with the expention of 30 cents, all his wards were absorbed in fines for desertion, and desertion warrants. Had the defendant gone to the hospital from the ship, he would have been entitled

discharged on the 20th ult. After that he was

knocking about the colony until he was arrested

on this charge. On the 26th October the captain

had told him there was \$27 due to him, shal he

had done 10 days' work since then.' All he had

be to his wages during the time he was there, and would have had his hospital expenses paid. He never said he was sick. The defendant could have got his recurity and his discharge, but instead of doing so, he got drunk.

The case was sout down to the Harbour Master to deal with with a certificate from the Colonial Surgeon to the effect that the defendant was suffering from stricture, and was unfit for duty as a seaman, and there remained nothing for him but to alternate between the Hospital and the gaol as long as he remained here. The case, SIR .- I have to neknowledge the receipt of however, was returned to the Magistiney, and the defendant was ordered to be returned to bis

Chun Tai, hawker, was sentenced to three mass through the post between China and this months' imprisonment for having stolen a brass amoking pipe, value \$1.20, the property of a widew named Wong Chat, on the 11th inst.

The island of Herm after being vacated by the Trappists some months ago, has again been purchased by another of the monastic Orders bailing from St. Pierre de Chartreuse. The contract ratifying the transfer has been signed before the Royal Court of Guernsey. The purchasers are two Roman Catholic priests who are acting on behalf of the confraternity, and are represented by an English solicitor, accompanied an inconvenience which you state is felt by the by an English agent to manage the estate. Both the solicitor and the agent went across to Herm yesterday afternoon to take formal possession of Packet during half the year, viz., from October | the island. During last spring Herm was purchased by the Trappists. A father superior, accompanied by five brothers of the Order, took up their quarters on the island for a few-weeks; but they ultimately left rather suddenly not having found (according to common report) the climate and surroundings so suitable for a permanent settlement as they had been led to expect. The island then reverted to its former proprietor, Mr. Considing, as the legal transfer to the Trappists by registration before the Royal Court had not been complied with, and thus again the island came into the market.
